A NOTE BEFORE YOU BEGIN

*"We didn't set out to build a platform. We set out to be better investors and build a better Balearic startup scene."*

- Patrick Visser, Founder

© 2026 Max Ventures · Palma de Mallorca · maxventures.eu

## WHERE IT ALL BEGAN

# Built on Mallorca to power innovation worldwide.

**M**ax Ventures was born from a clear ambition: to build a thriving technology ecosystem in the Balearic Islands. Patrick Visser took the first step by setting up a coworking space in central Palma and, with a close group of friends and fellow entrepreneurs, established Max Ventures Seed One, a €500,000 micro-fund, which invested in five early-stage startups.

As we ran the fund, we hit a universal investor problem: evaluating startups at scale is broken. Spreadsheets, inconsistent criteria, gut feel. So we built a tool to fix it - for ourselves. We called it **Pyinn**. When we saw how transformative it was, we knew every innovation network needed it.

That decision launched an entirely new business - and turned our local vision into a global platform.

Patrick Visser & David Franzen · Palma de Mallorca

## THE TEAM

## Patrick Visser

FOUNDER · MV

Serial entrepreneur and investor based on Mallorca. Decades of international business experience and a deep network in software, financial regulation and real estate. Founded Max Ventures with the conviction that the Balearics could become a serious hub for European innovation.

## David Franzen

MANAGING PARTNER · MV · CEO · PYNN

Serial founder with an operator background in B2B SaaS and marketplaces. Architect of the three-layer ecosystem strategy that turned an internal tool into a platform used by many networks worldwide.

## THE COWORKING SPACE

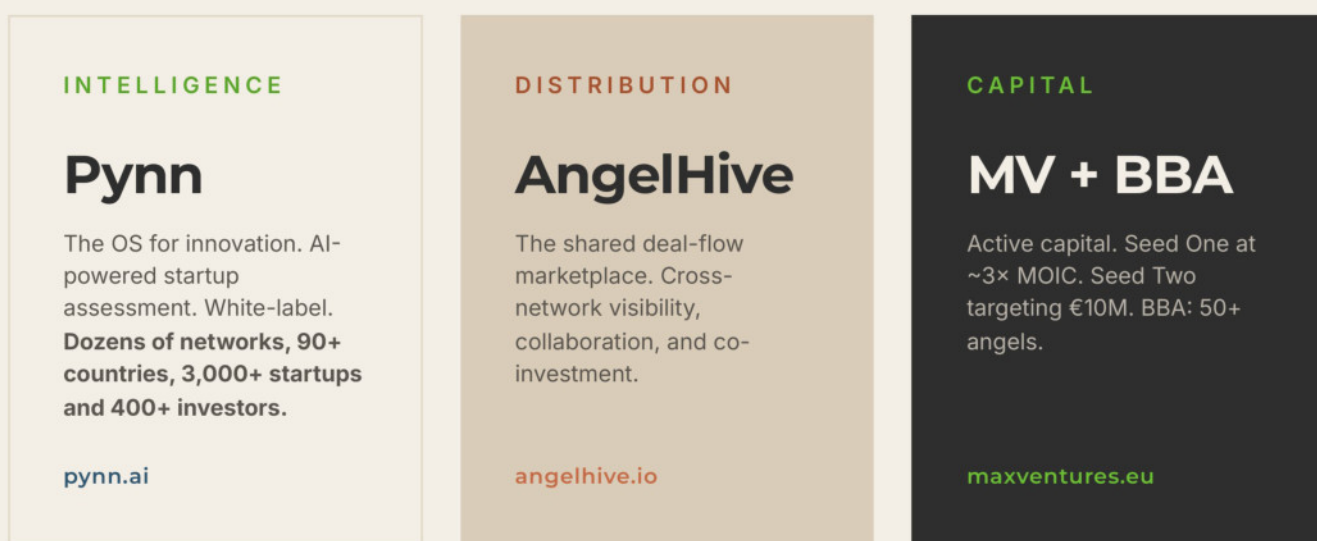

350m<sup>2</sup> in central Palma at Plaza Mirador Remigia Caubet, 5. Home to portfolio companies, a growing community of founders, and a regular programme of pitch events, investor lunches, and ecosystem meetups.

## THE CONNECTING PUZZLE PIECES

# Not three businesses. *One compounding ecosystem.*

Each layer creates value independently. Together they form a flywheel that gets stronger with every new participant.

## THE FLYWHEEL - A STRUCTURAL MOAT THAT COMPOUNDS

- 01** **New client joins** - A network, accelerator, incubator, or investor sets up on Pynn.
- 02** **Startups assessed** - AI scores across multiple dimensions in under 10 minutes.
- 03** **Flow enters AngelHive** - Assessed startups become visible on the global marketplace.
- 04** **Capital follows** - Pynn clients, including MV and BBA, invest (and co-invest) in the best startups.
- 05** **Moat widens → back to 01** - More data, more value, attracting more clients.

INTELLIGENCE LAYER · PYNN

# The operating system for innovation.

Live since April 2025. Dozens of networks globally. Startups assessed from 90+ countries.

## DISTRIBUTION LAYER · ANGELHIVE

# 1 application. 100s of investors.

All Pynn clients have their own private, branded ecosystems - managing their own deal flow and investor communities. But every one of those ecosystems is connected to AngelHive.

This is huge for both startups and investors.

A startup that applies to *one* Pynn community gains AI-scored visibility across *all* connected networks. Their score, data room, and track record travel with them.

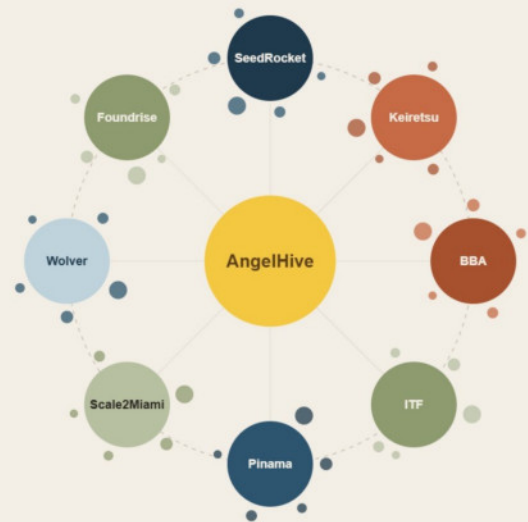

## No re-application. No duplicated effort.

For investors, the value is symmetric: use Pynn to assess your own deal flow - and simultaneously access the global database of AI-scored startups across all connected communities. The platform centralises startup data to effectively match the right founders with the right investors, programmes, and grants.

By knowing all about the startups and all about the investor, our system can effectively match them with each other, globally, dramatically increasing efficiency in innovation worldwide.

On the platform, beyond assessments, we also offer access to resources such as: Events, Services & Tools, Subsidies & Grants, Perks, Jobs, News and Mentors.

*"Every new community doesn't just add to the platform - they multiply the value for everyone already on AngelHive."*

## WHAT ANGELHIVE ENABLES

- **Cross-network visibility** - startups reach investors beyond their original community
- **Structured collaboration** - networks share deal flow, notes, and due diligence
- **Co-investment** - invite other networks to invest side by side
- **Private ecosystems** - every client retains their own branded portal

## MAX VENTURES - SEED ONE - 2023

# The 1st bet on Balearic talent.

Five startups. €100,000 each. 4 of the 5 remain active and growing. Proof that there are great founders building ambitious projects. Max Ventures Seed One (MVS0) is itself a client of Pynn - and benefits from the same AI-assessed deal flow it helps power. We also manage and track the portfolio's growth within the Pynn system.

MOIC

CAPITAL · BALEARIC BUSINESS ANGELS (BBA)

# Curated angels. Structured deal flow. Real relationships.

A curated group of 50+ angels based in or regularly visiting the Balearic Islands. Members get structured access to the best early-stage opportunities - filtered and scored by Pynn, with full access to AngelHive's global deal-flow marketplace.

BBA is a Pynn client. Every deal that reaches the monthly Investment Committee has been AI-assessed across various dimensions. Members invest smarter, not harder. Members have full control in what they invest in - we are not a fund, but simply a group of angels that act individually or can co-invest together.

## MEMBERSHIP BENEFITS

- Monthly Investment Committee with AI-assessed startups
- Quarterly Members Lunch — relationship-first, curated
- Full AngelHive access — global AI-scored deal flow
- Co-investment rights alongside Max Ventures
- Demo Days & Annual BBA Gala

## THE UNIQUE ANGLE

## A deal-flow advantage no other fund has.

Seed Two co-invests alongside our Pynn clients. We don't lead - we follow alongside networks we trust, networks that use Pynn's AI to assess every deal. Our clients can also invite our other clients to co-invest, essentially forming an informal global syndicate of Pynn clients.

### THE BALEARIC PREFERENCE

Where it makes sense, we steer founders and key hires toward Mallorca - feeding the local ecosystem we set out to build. Seed Two portfolio companies are encouraged to establish a presence in the Balearics.

## WHO WE'RE RAISING FROM

### Family offices

European multi-generational capital seeking ecosystem exposure and proprietary deal flow.

### High-net-worth individuals

Operators and entrepreneurs who want curated, AI-assessed early-stage flow.

### Strategic LPs

Corporates and partners with reach across European innovation networks.
